**With financial markets in panic mode, oil prices are likely to stay volatile in the near term. The UBS Chief Investment Office (CIO) has reduced the Brent Crude oil forecast to USD 68/bbl in 12 months time.**

Concerned about excess cash not generating returns? Consider earning yield with defensive commodity exposure, such as Brent Crude Oil.

Sentiment has slumped over rising fears that a potential trade war will result in a recession for the global economy and cause oil demand growth to slow—unless, of course, US President Trump reverses the tariff decisions for good. The lower oil price and the weaker US dollar could help offset some of the drag if full tariffs are being established.

With financial markets in panic mode, oil prices are likely to stay volatile in the near term. The UBS Chief Investment Office (CIO) has reduced the Brent Crude oil forecast to USD 68/bbl in 12 months time.
